PERSONAL PROJECTS

Farmer Customer Application (03/2021 - Present)

- This is an android application where Farmer can sell their products directly to customers without a middle man.
- We are also integrating a Machine Learning algorithm that will predict the price of the vegetable from the dataset.

College Application (02/2021 - Present)

- This project is about college application. I'm creating application for college so college can perform small activities from this application.
- I'm creating two application one application for admin and another application for user which are students.

Quiz Application using JAVA (07/2020 - 07/2020)

- In this project, I created a quiz application using java and MySQL database. This is a CRUD application.

PROGRAMMING LANGUAGES

Java

5 star coder at Hacker-Rank
